ABOUT US

Shimla Nursing College (SNC) was established in 2010 with a vision to provide quality nursing education & compassionate care to the community.

SNC is recognized by Indian Nursing Council (INC) New Delhi & affiliated to Himachal Pradesh University (HPU), Shimla, HP / Atal Medical & Research University (AMRU), Nerchowk, Mandi, HP & Himachal Pradesh Nursing Registration Council (HPNRC) Shimla & duly permitted by Government of Himachal Pradesh.

SNC is a unit of RCS Associates Charitable Trust (Regd.) & is instituted with a noble aim to uplift the women status in the society by training women to a high class of professional level so that they will commit themselves to ever rising demand of quality nursing services.

Today, SNC is a leading institution in nursing education with a strong focus on academic excellence, research & community service. We continue to grow & evolve, committed to producing competent & compassionate nursing professionals.

The new campus has beautiful environment, conducive to learning, located near new developed Chamya area, just 4 km from NH-5 & adjoining to new block of IGMC Super Speciality Hospital at Vill. Shurala, PO Kamlanagar (Near Chamya/ Bhattakuffer), Tehsil & Distt. Shimla-171006, HP.

MISSION: Our mission is to provide a transformative learning environment that fosters academic excellence, ethical practice & leadership in nursing. We strive to cultivate holistic development, best clinical training practice, innovation in healthcare practices & community engagement, guided by principles of equity, integrity, hard work & excellence.

VISION: To be a premier institution dedicated to excellence in nursing education, research & healthcare delivery, shaping compassionate & competent professionals who positively impact healthcare sector in the country.

INFRASTRUCTURE

The college has smart classrooms with smart panels, multimedia projectors & overhead projectors, along with other modern facilities such as:

Well equipped laboratories, Rich well equipped library, Spacious multi purpose hall cum auditorium, Wi-Fi enabled campus, Indoor & outdoor sports activities, Modern computer labs, Well-furnished hostels, 24x7 CCTV security & surveillance

NURSING FOUNDATION LAB:

Our Nursing Foundation Lab is a state-of-the-art facility designed to provide students with a solid foundation in nursing skills & techniques. The lab is equipped with:

- Hospital grade equipment & simulators
- Advanced patient care mannequins
- Intravenous therapy & medication administration tools
- Wound care & suturing equipment
- Vital sign monitoring devices

In this lab, students practice & master essential nursing skills, including:

- Vital sign assessment
 - Medication administration
 - Wound care and management
 - Intravenous therapy
 - Patient transfer & mobility techniques
- Under the guidance of experienced faculty, students develop the confidence & competence needed to provide high-quality patient care. The Nursing Foundation Lab is an integral part of our nursing program, ensuring that our graduates are well-prepared for clinical practice.

COMMUNITY LAB

Our Community Lab is a dedicated space for students to develop their community health nursing skills. The lab is equipped with:

- Simulation areas for home visits & community assessments
- Educational materials & resources for health promotion & disease prevention
- Models and simulators for demonstration & practice of community health skills

In this lab, students learn to:

- Assess community health needs
- Develop health education programs
- Conduct home visits & community assessments
- Provide health promotion & disease prevention services

This Lab prepares students to work with diverse populations, promoting health & wellness in a variety of community settings.

ANATOMY AND PHYSIOLOGY LAB

Our Lab is a cutting-edge facility designed to enhance students' understanding of the human body. The lab features:

- Human cadavers & skeletal models for hands-on dissection & exploration
- Microscopes & histology equipment for cellular & tissue analysis
- Physiology equipment for measuring vital signs & bodily functions

In this lab, students engage in:

- Dissection & exploration of human cadavers
- Interactive simulations & virtual reality experiences
- Microscopic examination of tissues & cells
- Measurement & analysis of physiological processes

Our Anatomy and Physiology Lab provides a unique learning environment where students can apply theoretical knowledge to real-world scenarios, developing a deeper understanding of the human body & its functions. This hands-on approach prepares students for their future roles in healthcare & high-quality patient care.

MATERNAL CHILD HEALTH NURSING LAB

Our Maternal Child Health Nursing Lab is a specialized facility designed to simulate real-world scenarios in obstetrics & pediatrics. The lab is equipped with:

- Advanced simulation mannequins, including pregnant females & infants
- Birthing simulators & fetal monitoring equipment
- Pediatric & neonatal care equipment, such as incubators & ventilators
- Lactation & breastfeeding simulation models

In this lab, students develop essential skills in:

- Prenatal, intra-partum & post-partum care
- Birthing simulations & fetal monitoring
- Neonatal & pediatric assessment and care
- Lactation & breastfeeding support

Our Maternal Child Health Nursing Lab provides a safe & immersive environment for students to practice high-risk scenarios, develop critical thinking skills & build confidence in providing quality care to mothers, babies & families.
